

CORONAVIRUS (COVID-19) MANAGEMENT POLICY

COVID-19 is a new strain of coronavirus that was originally identified in Wuhan, Hubei Province, China in December 2019. The World Health Organization (WHO), has declared that COVID-19 outbreak as a 'pandemic'- a Public Health Emergency of International Concern (effective 11 March 2020). This is mainly due to the speed and scale of transmission of the virus in countries around the world, including Australia.

COVID-19 is transmitted from someone who is infected with the virus to others in close contact through contaminated droplets spread by coughing or sneezing or by contact with contaminated hands or surfaces. According to Department of Health, the time of exposure to the virus and when symptoms first occur is anywhere from 2-14 days.

Symptoms can range from a mild illness, similar to a cold or flu, to pneumonia. People with COVID-19 may experience:

- fever
- flu-like symptoms such as coughing, sore throat and fatigue
- shortness of breath

The [Australian Government](#) is constantly updating the current status of COVID-19 including health recommendations, travel restrictions, and a vast collection of resources and information to help people make informed decisions.

As this information is changing rapidly, we are monitoring health alerts and implementing measures suggested by key health experts to minimise the transmission of COVID-19.

Highland Grove Preschool has a range of comprehensive policies in place to guide best practice in relation to health and safety, dealing with infectious diseases and maintaining a child safe environment. Our duty of care and responsibilities to children, parents, families and all staff to provide a safe environment is of utmost importance.

The evolving nature of COVID-19 and the unprecedented steps required to protect our community as recommended by the Australian Government, has resulted in the development of a specific policy to assist our Service manage this pandemic.

This policy will change as required to ensure the protective measures against COVID-19 as advised by our Government are implemented by our Service.

NATIONAL QUALITY STANDARD (NQS)

QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY		
2.1.1	Wellbeing and comfort	Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's needs for sleep, rest and relaxation.
2.1.2	Health practices and procedures	Effective illness and injury management and hygiene practices are promoted and implemented.
2.2	Safety	Each child is protected.

EDUCATION AND CARE SERVICES NATIONAL REGULATIONS	
77	Health, hygiene and safe food practices
85	Incident, injury, trauma and illness policies and procedures
86	Notification to parents of incident, injury, trauma and illness
87	Incident, injury, trauma and illness record
88	Infectious diseases
90	Medical conditions policy
93	Administration of medication
162	Health information to be kept in enrolment record
168	Education and care service must have policies and procedures

PURPOSE

Highland Grove will minimise our staff and children's exposure to COVID-19 by adhering to all recommended guidelines from the Australian Government- Department of Health and local Public Health Units to slow the spread of the virus. We will implement practices that help to reduce the transmission of the virus including the exclusion of any person (child, educator, staff, parent, visitor or volunteer) that is suspected or has tested positive to having COVID-19. Our Service will implement effective hygiene practices as per our existing policies and procedures and increase the frequency of cleaning and disinfecting high touch areas as per SafeWork Australia recommendations.

Our Service will provide up-to-date information and advice to parents, families and educators sourced from the Australian Government, Department of Health and state Ministry of Health about COVID-19 as it becomes available. Recommendations and health measures mandated by the Federal Government Department of Health will be strictly adhered to at all times.

SCOPE

This policy applies to children, families, staff, management, and visitors of the Service.

IMPLEMENTATION

Our Service is committed to minimise the spread of the COVID-19 virus by implementing recommendations provided by the [Australian Government- Department of Health](#) and Safe Work Australia.

Highland Grove implements procedures as stated in the *Staying healthy: Preventing infectious diseases in early childhood education and care services* (Fifth Edition) developed by the Australian Government National Health and Medical Research Council as part of our day-to-day operation of the Service.

We are guided by explicit decisions regarding exclusion periods and notification of any infectious disease by the *Australian Government- Department of Health* and local Public Health Units in our jurisdiction under the Public Health Act. COVID-19 is a notifiable condition in all states and territories of Australia.

The Public Health Unit will contact the Approved Provider in the event of any child, educator, staff member or visitor who has attended our Service, and has tested positive to COVID-19. Contact tracing will be conducted by the PHU and provide further advice.

National Coronavirus (COVID-19) Health Information Line
1800 020 080 Call 131 450 for translating and interpreting service
Health Direct 1800 022 222
Public Health Unit- Local state and territory health departments

This policy must be read in conjunction with our other Service policies:

- Sick Children Policy
- Incident, Illness, Accident and Trauma Policy and
- Medical Conditions Policy
- Handwashing Policy
- Health and Safety Policy
- Interactions with Children, Families and staff Policy
- Payment of Fees Policy

Risk Management

Our Service has effective and systematic risk management processes in place to identify any possible risks and hazards to our learning environment and practices related to COVID-19. Where possible, we have eliminated or minimised these risks as is reasonably practicable. Control measures are reviewed in consultation with staff members. Due to the constant changes in managing our Service during the pandemic, our approach to risk management is ongoing and fluid.

Effective 15 March 2020, the [Australian Health Protection Principal Committee](#) made recommendations to the general public to help manage the spread of COVID-19. These measures include implementing good hygiene, self-isolation and social distancing.

Amendments to this statement were made on April 6 and included recommendations for risk mitigation measures such as:

- exclusion of unwell staff, children and visitors
- reducing mixing of children by separating cohorts
- enhanced personal hygiene for children, staff and parents
- full adherence to the NHMRC childcare cleaning guidelines and cleaning and disinfecting high touch surfaces at least twice daily, washing and laundering play items and toys
- discouraging excursions to local parks, public playgrounds and
- recommending influenza vaccination for children, staff and parents (not compulsory).

The AHPPC also notes that alternative arrangements should be considered for highly vulnerable children.

Parents and carers of children with complex medical needs are encouraged to seek medical advice from their health practitioner to support decision-making regarding the suitability of their child accessing on-site education. Although this statement directly relates to primary schools, our Service recommends families to seek medical advice and relay this information to management. (AHPPC 24 April)

Parents of children with a current Asthma Action Plan are advised to update this if needed in consultation with their child's health care professional. Updated plans should be provided to management for distribution to relevant staff members. (Asthma Australia). Staff with compromised immune systems are also requested to seek medical advice whilst working in early education and care during the pandemic.

Our staff are committed to assist in infection prevention controls and have completed COVID-19 infection control training.

Hygiene practices

Highland Grove will ensure [signs and posters](#) remind employees and visitors of the risks of COVID-19 and the measures that are necessary to stop its spread including hand washing and hand rub procedures and information about COVID-19. These will also be communicated to families through email, newsletters and social media. Alcohol-based hand sanitiser will be kept where children can use it with adult supervision. If parents decide to apply this to their child, they must supervise the child to avoid rubbing it into their eyes or a child swallowing the gel/liquid. Our Service will supply disposable tissues and have bins available with plastic liners available in several locations for disposing used items.

Information provided to families may include:

- symptoms of COVID-19
- transmission of the virus
- self-isolation and exclusion
- prevention strategies- including hand hygiene and self-isolation
- contact details for health assistance
- updated information about temporary changes to Payment of Fees policy

[The Approved Provider, Nominated Supervisor, educators, staff, families and visitors will comply with the following:](#)

Exclusion/ Self-isolation/ Self-quarantine

Our Service has an obligation to ensure the health and safety of employees, children and visitors in our workplace, so far as reasonably practicable. We may therefore collect information from visitors about their potential exposure to COVID-19 in order to identify, assess and control risks of infection in line with Department of Health guidelines. Information collected will only be viewed by the centre director, office manager and room leaders and will be stored securely. To comply with privacy laws, personal information will only be disclosed on a 'need to know' basis to the Public Health Unit to prevent and manage COVID-19 if required. (ACTU Privacy at work)

- any person visiting our Service- including families 'dropping off' children, must not have come into *close contact* with anyone with a positive COVID-19 diagnosis or have been to any of the COVID hotspots in the past 14 days.
- effective 28 March 2020, **any person** entering Australia from any destination will be required to undertake 14-day quarantine at designated facilities (Australian Government)
- any person who has been in close contact with someone who has a positive diagnosis must self-isolate for 14 days
- household members of a person who has a confirmed case (including children) of COVID-19 must also be isolated from the childcare Service and general public
- the Public Health Unit will provide further information on a case-by-case basis as to the length and place of isolation. (see: [COVID-19 self isolation](#))

- in the event of a staff member, parent, child or visitor being diagnosed with COVID-19 the Public Health Unit will conduct contact tracing and provide further advice to our Service if required
- any person (employee, enrolled child, parent, caregiver, visitor or contractor) who is displaying symptoms such as: fever, coughing, sore throat, fatigue and shortness of breath, should be tested either by visiting a free COVID-19 respiratory clinic or contacting their GP to arrange a test for COVID- 19 and not attend our Service **under any circumstance.**

Implement effective hygiene measures

The national campaign *Help Stop The Spread and Stay Healthy*, launched by the Australian Government has emphasised that effective handwashing is a vital strategy to help reduce the spread of the COVID-19 virus. Handwashing with soap and water for at least 20 seconds whenever you cough, sneeze or blow your nose, prepare food or eat, touch your face or use the toilet is recommended.

Our Service will adhere to National Regulation requirements and Government guidelines to ensure all educators, children, families and visitors to the Service implement best practice.

Our Service will ensure:

- all employees, parents, children and visitors must wash their hands with soap and water or use the alcohol-based hand sanitiser provided upon arrival to the Service
- hands must be thoroughly dried using disposal paper and disposed of in the bin provided
- disposable tissues must be used to wipe noses, eyes or mouths and disposed of in the bin provided immediately after use
- hands must be washed following the use of tissues
- hands must be washed thoroughly using soap and water before and after using the toilet
- cough and sneeze etiquette must be used- cover your cough and sneeze with your hand or elbow
- educators and staff must adhere to our *Handwashing Policy* at all times
- children are supervised when washing hands
- educators and staff must adhere to effective food preparation and food handling procedures
- educators will wash their hands or use alcohol-based sanitiser, before wearing gloves and wash their hands after wearing gloves. (See handwashing policy).
- educators and staff must adhere to our *Health and Safety Policy* for cleaning and disinfecting surfaces and equipment (such as toys, puzzles, outdoor toys, bedding, playdough etc) as per *Staying healthy: Preventing infectious diseases in early childhood education and care services* recommendations
- staff will maintain a cleaning register of all surfaces cleaned during COVID outbreak (during period of time virus is present in local area).

- equipment, resources and surfaces including high-touch surfaces- taps, door handles, light switches, nappy change areas, toys, keyboards and laptops/iPads will be cleaned more frequently as required using detergent and water followed by disinfectant (or product which does both tasks as recommended by Fair Work Aust)
- cleaning contractors hygienically clean the Service to ensure risk of contamination is removed as per [Environmental Cleaning and Disinfection Principles for COVID-19](#)
- washroom facilities for employees have adequate supplies of soap, toilet paper and alcohol-based sanitiser

NOTE: According to the World Health Organisation, COVID-19 may survive on surfaces for a few hours or up to several days. (March 14 2020)

Social/Physical distancing in childcare

Social or physical distancing is important because COVID-19 is most likely spread from person-to-person through close contact with a person while they are infectious, close contact with a person with a confirmed infection who coughs or sneezes or from touching objects or surfaces (such as door handles or tables) contaminated from a cough or sneeze from a person with a confirmed infection and then touching your nose or mouth. (source: Australian Government Department of Health. Coronavirus disease)

Social or physical distancing in early childhood education and care is not feasible for educators to perform their job, however we will implement measures to minimise the risk of exposure as *reasonably practicable*.

Early Childhood Education and Care services are not subject to restrictions on how many people (adults or children) can be on the premises at one time. Our Service will encourage educators to apply physical distancing measures where possible and not gather in groups or encourage groups of parents to congregate. (SafeWork NSW, AHPPC)

To reduce the spread of COVID-19 parents are reminded of the following:

- if your child is sick, do not send them to our Service
- do not visit our Service if you or another family member is unwell
- Wash or sanitise your hands on arrival at the centre

To minimise the risk of exposure to COVID-19 our Service will:

- undertake a risk assessment to identify potential risks and mitigate with consideration risks to children and staff
- revisit the risk assessment whenever new risks or potential risks are identified and adjust our management plan
- restrict the number of visitors to our Service (including students, delivery of goods)
- restrict the number of family members visiting our Service
- Be mindful of the number of educators using the staff room at any one time
- reduce mixing of children between rooms

- where possible, outdoor play will be promoted within our Service to provide children with additional personal space
- increase ventilation within the Service
- staff should serve children food and avoid children to self-serve from a shared plate
- avoid any situation when children are required to queue- such as waiting their turn
- contact parents of children who have chronic medical conditions or immunosuppression as they may be at an increased risk of disease and require additional support/care
- cancel all group outings to public places (excursions to local shops, schools, libraries, aged care facilities)
- cancel large group celebrations/events

Suspected cases of COVID-19 at our Service

As per our *Sick Child Policy* we reserve the right to refuse a child into care if they:

- are unwell and unable to participate in normal activities or require additional attention
- have had a temperature/fever, or vomiting or diarrhoea in the last 24 hours
- have been given medication for a temperature prior to arriving at the Service
- have started a course of anti-biotics in the last 24 hours or
- if we have reasonable grounds to believe that a child has a contagious or infectious disease (this includes COVID-19)

Our Service also reserves the right to prevent employees, parents, family members or visitors to enter our premises if the Approved Provider or Nominated Supervisor suspects instances of COVID-19 due to symptoms being displayed.

Notification

The Approved Provider or Nominated Supervisor is mandated by law to notify the Public Health Unit or [Health Information hotline](#) on 1800 020 080 of any confirmed case of COVID-19. In addition, the Approved Provider must also notify the [Regulatory Authority](#) in their state or territory within 24 hours.

Management reserves the right to request employees to self-isolate if they suspect they have come into contact with someone who has a confirmed COVID-19 infection.

At all times, privacy laws must be adhered to and information about individuals must not be shared without permission.

Talking to children about COVID-19

Highland Grove preschool is committed to maintaining positive interactions and relationships with children and their families. Information provided to children about COVID-19 will be age appropriate and sensitive to their emotional wellbeing. Educators will both acknowledge children's concerns and be open to discussions about COVID-19.

Educators will inform children about the virus and emphasise preventative measures such as handwashing, use of tissues, cough and sneeze techniques and limiting touching other children's faces.

Posters to demonstrate correct handwashing methods will be referred to and educators will model techniques.

Children's emotional well-being will be closely monitored by all educators and staff and any concerns communicated with parents and families. Children's questions will be respected and supported.

Staff will be supported in professional learning to help children deal with trauma related to COVID-19 through resources, webinars and online modules. (Emerging Minds, beYou)

In the event of the Service being closed as a precaution to limit the spread of the virus, information will be provided to parents/families to help explain the situation to young children.

Payment of Fees

From 13 July 2020 until 4 April 2021, changes to the activity test have been made to assist families who can no longer engage in the same hours of work, training, study or other activity prior to the COVID-19 crisis. Families may meet the requirements to access 100 hours of subsidised child care per fortnight for up to 12 weeks. Families will need to update their activity levels through [myGov](#).

Children must continue to meet immunisation requirements.

CCS hourly rate caps will be adjusted from 13 July 2020. see: [Child Care Subsidy rates](#)

[Allowable Absences from childcare](#)

Effective 1 July 2020, 42 initial absence days will come into effect for the 2020/21 financial year.

The Approved Provider is obliged to recover gap fees for absence days once CCS recommences from 13 July 2020 unless the service is forced to close on public health advice as a result of COVID-19 (until 31 December 2020).

Allowable Absences Provisions will also take effect on 13 July 2020. This allows families to receive CCS for absences up to seven (7) days before a child's first physical attendance at a service and seven (7) days after a child's last physical appearance where they have been booked in for care for a set of predetermined reasons. Further information can be found at: [additional absence reasons](#)

Session reports to the Child Care Subsidy System will recommence from 13 July 2020.

[What happens if our Service is forced to close?](#)

The decision to close our Service will be made, and advised, by relevant state and territory governments PHU or the Regulatory Authority. This may be due to a confirmed case of COVID-19 in our Service community.

Should this occur, all families will be notified immediately via email and/or phone.

The Approved Provider must notify the [Regulatory Authority](#) within 24 hours of any closure via the [NQA IT System](#) and the Department of Education, Skills and Employment in their state or territory.

Early Childhood Education and Care Relief Package payment will still be paid in the event of a forced closure until 31st January 2021.

From 13 July 2020, should our service be directed to shut down due to COVID-19, or a fire, flood or other local emergency, our standard local emergency procedures will be followed. Activating a period of local emergency will allow families access to additional absences if the initial 42 absence days per child per financial year have been used. Additional absences days claimed due to COVID-19 related reasons, do not require a medical certificate (until 31 December 2020)

If our Service is forced to close on public health advice as a result of COVID-19, out of pocket fees will be waived for the period 30 June until 31 December 2020.

If a service decides to close, and it has not been directed to do so for a valid health and safety reasons, **no** payment will be payable.

[Staff entitlements if sick or suspected to have COVID-19](#)

Under workplace health and safety laws, our Service must ensure the health and safety of all employees.

[Confirmed COVID-19](#)

If an educator or staff member is confirmed to have COVID-19, they are unable to attend the workplace and cannot return to work until they have completed a period of self-isolation of at least 14 days. Employees must make a declaration that they are *fit for work* and have no symptoms of COVID-19 for the past 72 hours (3 days). A doctor's certificate or clearance is not required.

Full and part-time employees who cannot attend work due to illness can take paid sick leave.

As per our privacy obligations under the *Privacy Act*, the identity of a person with a confirmed case of COVID-19 will only be shared with Public Health and/or on a strictly 'need to know' basis. Access to personal or medical information can only be shared with the consent of the employee.

Caring for a family member or emergency

If an employee cannot attend work due to caring for a family member due to COVID-19, they are entitled to take paid carer's leave. Casual employees are eligible to have 2 days unpaid carer's leave per occasion. See **Fair Work Act** for entitlements for casual, part time and full-time employees. Reasonable evidence is required to justify the absence.

Self-isolation due to travel or returning from interstate where borders are closed

As per Australian Government's new measures for COVID-19 effective 28 March 2020, any person returning from overseas will be mandated to isolate in a designated facility. The employee **is not entitled** to be paid (unless they use paid leave entitlements- annual leave. Employees are not entitled to use personal sick leave as they are not 'sick'. Employers may choose to adopt an option to satisfy both parties. (See: [Australian Business Lawyers and Advisors](#) for further information)

Similarly, any person required to self-isolate due to travel restrictions within Australia are not entitled to be paid. Employees can access up to 2 weeks of unpaid pandemic leave if they can't work. (until 30 September 2020) see below

Self-Isolation Unpaid Pandemic Leave

Effective 8 April 2020, employees who are required to self-isolate by government or medical authorities or acting on advice of a medical practitioner may access unpaid [pandemic leave](#). (effective 8 April to 29 March 2021). Pandemic leave needs to start before 31 July 2020 but can finish after this date. The agreement has to be in writing and the employer needs to keep it as a record.

This leave provides employees with:

- 2 weeks of unpaid pandemic leave
- the ability to take twice as much annual leave at half their normal pay if their employer agrees.

Self-Isolation directed by Service

Where an employee is directed by the Approved Provider to stay home and self-isolate as they have shown symptoms of a flu-like illness, and the employee is not sick and able to work, our Service will continue to pay the employee as per their contract. The employee will be requested to complete work from home negotiated with the Approved Provider.

Self-isolation as a precaution

If an employee wants to stay home as a precaution of contracting COVID-19 they may negotiate to take unpaid leave, annual leave or long service leave with Management.

Employees who are stuck overseas or in quarantine

If an employee cannot return to Australia due to the COVID-19 virus, they must contact the Approved Provider immediately. Management will negotiate payment considering accrued annual leave, long service leave or leave without pay.

Waivers

In the event of staff members requiring to self-isolate due to possible infection of COVID-19, the Approved Provider will apply to the Regulatory Authority for waivers for qualifications and/or ratios to minimise disruptions to our provision of care. (Payment for waivers must be paid, however will be reimbursed by the regulatory authority)

Communicating with families

Our Service will establish continue regular communication channels with families and share information about COVID-19 as required.

Due to the fluid nature of COVID-19 and the necessity of self-isolation for some staff members, our Service will endeavour to inform parents and families of any staff changes on a daily basis.

Staff who have approved leave will be replaced with casual staff and families will be informed as per our usual practices to ensure continuity of care where possible.

Caring for our community

We understand that the outbreak of COVID-19 and the constant amount of information received through the media may be very stressful to young children and parents. The anxiety about this virus may be overwhelming and cause fear and anxiety to some people, especially children.

Our Service is committed to continue to provide quality education and care to all children and support families responsibly during this unprecedented challenge with the COVID-19 outbreak.

Knowing how to look after yourself, and others is very important during this crisis.

We will promote a safe and supportive environment by:

- reassuring children they are safe
- acknowledging and listening to children's questions
- promoting and implementing hygiene routines for handwashing and cough and sneezing
- keeping regular and familiar routines within our Service
- ensuring children eat well throughout the day
- engaging children in play, games and other physical activities
- being alert to children's level of anxiety and provide quiet and relaxing activities
- ensuring children are provided with rest and sleep when needed
- providing information to families and support services as required
